08:00/08:30						Robert Lhermitte medal lecture - J. PROVIS		
08:30/09:00						Report of TC - MDC (Multi-decade creep and shrinkage of concrete) - Z.P. BAZANT		
09:00/09:30						Report of TC-MPS (Mechanical properties of self-compacting concrete) - K. KHAYAT		
09:30/10:00					Coffee break			
10:00/10:30	RILEM Bureau - M. ALEXANDER	TC - MMB (Methods of measuring moisture in building materials and structures) - L.O. NILSSON				Admixture and polymers for construction materials - R. FLATT		
10:30/11:00							Fiber reinforced concrete (I)	Structural and mechanical performances of self compacting concrete
11:00/11:30						Admixture and polymers for construction materials (I)		
11:30/12:00								
12:00/12:30					Lunch			
12:30/13:00							Foam and air in construction materials - O. PITOIS	
13:00/13:30			TC - CSM (Composites for sustainable strengthening of masonry) - G. DE FELICE					
13:30/14:00							Foam and air in construction materials	Lightweight self compacting concrete
14:00/14:30						Admixture and polymers for construction materials (II)		
14:30/15:00								
15:00/15:30	RILEM Bureau - M. ALEXANDER	TC - SAP (Application of super absorbent polymers in concrete construction) - V. MEYCHERINE		TC - SRT (Sulfate resistance testing) - V. BAROGHEL-BOUNY				
15:30/16:00							Incorporation of wastes in construction materials - G. HABERT	Mixing, production and online control of construction materials - E. GOULLIARD
16:00/16:30								
16:30/17:00						Admixture and polymers for construction materials (III)		
17:00/17:30							Incorporation of wastes in construction materials	Mixing, production and online control of construction materials (I)
17:30/18:00								
18:00/18:30	GALA DINNER
